

Genomic DNA from *Glossina pallidipes*

Catalog No. NR-44342

For research use only. Not for human use.

Contributor and Manufacturer:

Serap Aksoy, Ph.D., Professor, Epidemiology and Public Health, Yale University, New Haven, Connecticut, USA

Product Description:

Genomic DNA was obtained from a preparation of *Glossina pallidipes* (*G. pallidipes*; tsetse fly) using a TRIzol® (Life Technologies™) extraction protocol.

The original *G. pallidipes* colony was established from Lugala, Lake Victoria, Uganda in 1975.¹ The colony was transferred to Yale University via the Bristol Laboratory, United Kingdom and Peter Takac, Slovakia.¹ The whole genome shotgun sequence of a representative *G. pallidipes* colony is available (GenBank: [JMRQ00000000](https://www.ncbi.nlm.nih.gov/nuccore/JMRQ00000000)).

Protocol:

The control PCR amplification parameters for *Glossina* spp. internal transcribed spacer 2 (ITS-2) are 1 min. at 94°C, 55°C, and 72°C, for 35 cycles in a buffer containing 2.5 mM MgCl₂, 0.25 mM dNTPs, and 500 nM concentration of each primer with Taq polymerase in a DNA thermal cycler. DNA corresponding to the ITS-2 region was amplified using the oligonucleotide primer set ITS-2F/ITS-2R corresponding to the *Anopheles gambiae* mosquito 5.8S and 28S rDNA conserved sequences (GenBank: X67157)²:

ITS-2F: 5'-TGTGAAGTGCAGGACACATGAAC-3'
ITS-2R: 5'-AATGCTTAAATTTAGGGGGTAGTC-3'.

Material Provided:

Each vial of NR-44342 contains approximately 2.5 µg of genomic DNA at 50 ng per µL in TE buffer (10 mM Tris-HCl, 1 mM EDTA, pH 8.0). The vial should be centrifuged prior to opening.

Packaging/Storage:

NR-44342 was packaged in cryovials. The product is provided frozen and should be stored at -20°C or colder immediately upon arrival. Freeze-thaw cycles should be minimized.

Citation:

Acknowledgment for publications should read "The following reagent was obtained through BEI Resources, NIAID, NIH: Genomic DNA from *Glossina pallidipes*, NR-44342."

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services,

Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. [Biosafety in Microbiological and Biomedical Laboratories](#). 5th ed. Washington, DC: U.S. Government Printing Office, 2009; see www.cdc.gov/biosafety/publications/bmbl5/index.htm.

Disclaimers:

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at www.beiresources.org.

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government makes any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to BEI Resources are not liable for damages arising from the misidentification or misrepresentation of products.

Use Restrictions:

This material is distributed for internal research, non-commercial purposes only. This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.
